

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter consist two section, the first section dealt with the conclusion of findings of the research and other one deal with the suggestion

A. Conclusion

This study was conducted to find out how students perceive the use of YouTube as the media to learn English speaking skills in the English Education Study Program of IKIP PGRI Pontianak. Based on what has been discussed, presented and analyzed.

In the previous chapter, in conclusion, the use of YouTube as media to learn English speaking skills are five respondents, it was found that there were 3 respondents who had a perception of improving speaking skills. They use YouTube and it can make it easier for them to understand and know more about dialects, how to pronounce them, from five respondents, and then found that there were 2 respondents who had positive perceptions. Students had positive perceptions about using YouTube to learn English. so much to gain from it. Like about grammar, vocab pronunciation, and from five respondents it was found that there were 4 respondents who had the perception that it was easier to use YouTube as a medium for learning English.

B. Suggestion

In connection with this conclusion, the researcher would like to put forward the following suggestions that hopefully can be useful and help students and researchers.

1. To Students

For students, based on the results of the study, it shows that students' perceptions of using YouTube videos for speaking skills are positive. So, YouTube videos can be a helpful medium for learning English speaking,

with the research that researchers hope, this research can change in the teaching process by using YouTube

2. To Lecturers

Researchers hope this research can help lecturers to find Productive media for teaching speaking English.

3. To other Researchers

The researcher is very aware that there are still many mistakes and shortcomings in this research. So, criticism and suggestions Needed.

The researcher apologizes profusely for the shortcomings and mistakes when conducting this research. This study is expected to provide you with

Confidence to believe in yourself that there is not only one way to teach because nowadays, there are many online platforms being developed to create Easier learning process.
