

## CHAPTER V

### CONCLUSIONS AND SUGGESTIONS

#### A. CONCLUSIONS

The purpose of this study was to improve the students' reading skills of Class XI IPS 2 SMAN 2 Sungai Kakap in the academic year of 2022/2023 by using Canva as a learning medium. Based on the research findings, the following conclusions can be drawn:

1. The use of Canva as a supporting medium for learning English has resulted in an increase in the reading ability of class XI IPS 2 students at SMAN 2 Sungai Kakap. This improvement is evident from the data and tests collected by the researchers that compared performance before and after incorporating Canva into the learning process during Cycle I and Cycle II.
2. The researchers observed significant improvement between cycles, with greater progress seen in the tests administered during Cycle II compared to those performed in Cycle I.
3. The use of Canva media can improve students' reading skills and can be the right strategic solution to help overcome problems in improving students' reading skills in the process of learning English in class. Thus, the action hypothesis in this study can be accepted.

#### B. SUGGESTIONS

Based on the findings of this study, the researcher would like to provide suggestions and recommendations for teachers, students, schools and other researchers. These recommendations are as follows:

1. For teachers

Teachers are encouraged to be creative in their delivery of teaching and use a variety of teaching techniques to create interesting and enjoyable learning experiences for students. Integrating Canva as a learning support

medium can contribute to effective learning and improve students' English skills.

2. For students

Students are advised to actively participate and show enthusiasm in their English learning journey to improve their overall language skills, including reading, listening, speaking and writing.

3. For school

Schools are encouraged to provide the necessary facilities and resources to foster a positive learning environment, particularly in English education. These provisions can increase student motivation and enthusiasm, resulting in more effective learning outcomes.

4. For other researchers

It is suggested to other researchers to utilize the findings of this study as a reference and guide for further research on the application of Canva as a learning support medium. However, researchers are advised to explore creative approaches in incorporating Canva into the teaching and learning process.
