

## **CHAPTER V**

### **CONCLUSSION AND SUGGESTIONS**

#### **A. Conclusion**

This research was conducted to improve students' reading comprehension using the choral reading method with seventh grade students of SMPN 1 Sungai Kakap in the 2021/2022 academic year.

Based on the results of the study, it can be concluded that the use of the Choral Reading method in learning English and enthusiasm in learning reading comprehension. This can be seen from the results of field notes and observation checklists in each cycle. students join the class and seriously, students show their progress in learning in each cycle. In the first cycle students became more active, moreover there was an increase in the situation from cycle I to cycle II.

The results of this study indicate that the Choral Reading method can improve students' reading comprehension and the progress of students' attitudes towards English lessons, especially in reading comprehension. students are actively involved in the teaching and learning process, it is proven that the choral reading method improves students' reading comprehension in two cycles. The student's score in the first cycle is 52 and in the second cycle is 76.2.

Based on the results of the study, it can be concluded that the choral reading method can improve students' reading comprehension. In addition, the researcher suggests that English teachers use the choral reading method in the teaching and learning process, especially in reading comprehension

#### **B. Suggestions**

Based on the conclusions above, the researcher would like to give some suggestions for English teachers, future researcher, students, and anyone who reads this thesis as follows:

1. For the English Teacher, it is recommended to use the coral reading method as an alternative among other teaching methods that can be used in teaching reading comprehension, because by reading with the choral reading method students can participate in their learning efforts in class.
2. For the Students  
Students should learn more about reading comprehension for a better understanding of knowledge. Students should improve their reading, if they have difficulty in learning they can ask the English teacher. Students can also use the choral reading method to help them learn reading comprehension in the classroom.
3. For the Next Researcher
  - a) It is recommended for further researcher to use this thesis as a reference or further research with a different discussion.
  - b) Readers who are interested in further study (University students) related to this research should explore knowledge to broaden their understanding of how to improve students' reading comprehension and look for other references.
